Canyon Pipeline Overview

September 2024

THINK AHEAD »

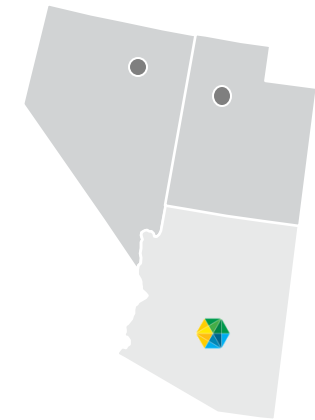

Who We Are

- » We take great pride in our local roots and in working on the essential gas systems that deliver power to homes and businesses. Our strategic partnership approach with customers, continuous pursuit of innovation, and unwavering commitment to safety and quality distinguish us among our peers and have earned us a reputation for leadership.
- » Our work makes an impact, and our mission is to ensure that it's a positive one by building better as a responsible business citizen, employer of choice, steward of the environment, and member of the community.
- » With offices in both Northern Utah and Nevada, we are well positioned to serve our customers in the West and beyond.

Our Vision

Our vision is founded on five core values

Experience

Experience builds expertise through training and execution.

We are a learning organization always seeking to improve our knowledge and skill.

Resolute

We are honored to serve alongside our customers, and we stand by the work we perform.

Responsiveness

When our customers need us, we're there for them.

The work we do matters, and our commitment is not taken lightly.

Trust

We will be honest and transparent with our customers and the customers they serve, building trust in every relationship.

Caution

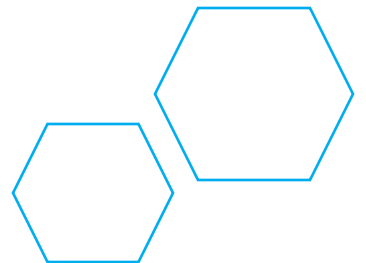

We will always put safety and quality first.

No shortcuts.
No compromises.
No excuses.

Additional Services

Special Projects

- » The Canyon Special Projects team drives innovation for alternative solutions unique to our customers.

Traffic Control

- » Many of our pipeline construction and excavation projects require traffic control planning to keep our crews and the public safe. Canyon Traffic Control offers turnkey services for every aspect of traffic control.
- » We employ highly-trained crews that include ATSSA-certified flaggers and seasoned crew leaders to ensure safety, maximize efficiency, and meet deadlines. With years of experience and a modern, diverse fleet, we'll guide the way.

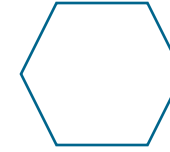

Additional Services

Emergency Response

- » Canyon's emergency response services give our customers the resources and reassurance they need regardless of when or where they need them.
- » By planning for the unknown – weather, damage, or other incident – Canyon is prepared to take action 24/7/365. With an experienced workforce and modern fleet, we mobilize quickly to stabilize your situation. With the right people, equipment, and compassion for the situation, Canyon helps set things right so life can return to “normal” as soon as possible.
